Health and Safety Agreement

Parents must make sure their children wear their hats from the moment they come onto the stable yard until they go home., and that their children only cross the main road with permission :-

To be allowed on the stable yard, members of the public must abide by the Health and Safety rules of the establishment.

With children, these rules REQUIRE that riding hats are worn from the moment they come onto the stable yard until they go home. In addition, under 16 year-olds must not cross the main road without asking permission, and must have signed permission below of their parents to cross on their own, once authorised.

Failure to comply with Health and Safety rules will result in the customer not being allowed onto the stable yard.

I, _____, the parent / guardian of _____
agree to :-

- 1) Ensure that my child complies with the requirement to always wear a riding hat in the stable yard, and understand that failure to do will result in their not being allowed onto the yard.
- 2) Ensure that my child complies with the rule to only cross the main road after asking specific permission for each individual occasion.
- 3) Agree that my child may cross the main road on their own once permission has been given for that specific occasion.

Signed: _____

Date: _____
